Grouped into nine geographical regions, these summits represent the best of the best from well-known destinations to more remote areas to a sampling of the highest peaks. Historical anecdotes about each region round out the guidebook. Tours range from a half day to seven days, and while all can be completed on either snowboard or skis, the author makes specific recommendations for the best snowboard descents. Each trip description includes a complete narrative of the ascent and descent plus information on trip highlights, trip duration, level of difficulty, mileage, elevation gain, and access. The appendix includes a list of California's highest peaks.
